**Subject:** Patent Examiner Nut-Jobs

Rate Hike on ex parte reexamination fees!!! Really? Keep it up. At this rate there will be no more intellectual property coming out of the US. Get rid of the Patent Office Examiners and ship them off to the EU. They want to change everything (including our patent laws) to look like those idiots. Get in a new bunch of examiners that are ex-scientist, business women and men who know how hard it is to come up with the money to file for a patent. Too much government. Idiots. ☹
